\_\_\_\_ OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

**Item 15- Remarks**

Please use maps on file at the Division of Water Resources under Applications 11959 and 12515 to support the existing point of diversion and place of use.

The primary use of water under this application is to maintain water in an existing reservoir on the property for aesthetics, recreation and other quasi-municipal purposes.

It is the intent that this application will in no way adversely effect or change the water rights from McFaul Creek held by the Bournes.

Reference is made to Permits 45354 through 45359 as confirmation that McFaul Creek is tributary to Lake Tahoe.
